WTF?

Where the hell is Off-Centre Camp? And who are all these wonderful people? And, WTF IS THAT THING? OMG!

WELCOME HOME!

Here's what's new this year:

- × Our event hub (Off-Centre Camp) has moved. It's now between 8ish and 9ish, and, like Tankwa Town, it's grown over the years. Rangers, Medics, Volunteers, Arteria, Sanctuary, Media and Ice are all located there, check it out.
- × The DMV is now at 6ish amid a cluster of machine love.
- × There are two new (quiet) camping zones between the entrance road and Lady Davina Boulevard.
- × The Clan burns Friday, the Temple on Saturday.
- × You look even better than last year.

EVENT SERVICES

01 OFF-CENTRE CAMP (OCC)

Your friendly local community centre and information station - now between 8-ish and 9ish on the Binnekring. It's HQ for Rangers, Medics, Sanctuary and our operations centre - and it's where Kid's Registration happens. The big red booth is where volunteers can sign up and check in for most shifts (or be pointed in the right direction). There are loads of blackboards with shift lists on display - and lots of space for you to leave messages for friends & campmates.

Lost & Found items will make their way here, and there's a donations box for Outreach. Open mic / creative & performance space daily from Monday to Sunday - read the Performance

section for more information, and check out the boards on the day. Rumour has it there will be ice cream for an hour every day...

Open every day from the 25th until the 4th of May, 08h00 to 20h00 Monday to Sunday.

02 TOILETS

If it didn't come outta your body, it doesn't go in the potty. Our toilets are all round the edge of the camping areas and there are even some in the camping area, and some in the Binnekring. Please use them. The longdrops come with lovely views. Look for the white flags and lights. A red flag means it is out of order, please use the next one.

03 AIRSTRIP

Take a look at the map to see where our airstrip, and helipad are - and please don't go anywhere near them when planes or choppers are taxiing or landing, even if it looks cool.

Planes are fascinating for the kids but also very dangerous - please never touch them, or go close, without the pilot. They can bite.

04 DRONES / RC AIRCRAFT

If you plan on operating a drone recreationally or to shoot footage from, you need to register your drone with our UAV team. Harry from the UAV team will be at Off-Centre Camp at 12 midday each day to advise drone operators on fly zones, do inspections and assist with registrations.

05 DPW

They built this city - the roads, the streetlights, the toilets you use and the signs that help you find your way, so show them some love! One way you can do that is by donating any unopened or non-perishable goods (including beer) you don't need, on exodus. Another is by not asking to borrow their tools - or walking into their camp uninvited, as it's their home, not a theme camp.

06 DMV

If you have made a Mutant Vehicle this is where you come to license it to drive in Tankwa Town. Remember

to bring your registration number. Meet sporty horny types in short skirts playing pool and handing out traffic fines. The home of oxtail potjies, gifted coffee and the smell of LRP. Home to delicious craft beer. Located at 6ish.

07 MEDICS

Headaches and hangovers? They're not emergencies. Our medics are there to assist in emergencies only - so for all other medical stuff, be self-reliant and use your medical kit. Look for the big red cross and inform your campmates of where to find them if needed. Located at Off-Centre Camp.

08 RANGERS

Rangers are non-confrontational community mediators, there to promote awareness of potential hazards, ranging from sunburn to tent fires. They are NOT police but interactive participants of the community who protect and assist the people of Tankwa Town - not the property. To be a Ranger, a sense of humour and flexibility is a great asset; it's a way of meeting and engaging with the burner community. Rangers are also the eyes and ears for the site manager on duty and the link between the field and the head Ranger. They carry radios and have support from the head Ranger.

The Ranger Headquarters is in Off-Centre Camp between 8ish & 9ish.

09 SANCTUARY

A quiet space for participants who are having a rough time of it. If you have a psychological emergency, this is where you can find calm and sanctuary. For more information check with the Rangers or s. Located at **Off-Centre Camp**.

10 VOLUNTEERS

Signing up for a Volunteer shift? Fancy Greeting at the Virgin Bell? Being a Volunteer Faery or Coordinator at Off Centre Camp? MOOPing a mess? Help registering children? There are numerous ways you can step up and volunteer - and we welcome you no matter what skills you have. It's a great way to make your experience more meaningful and give back to the community. Volunteer HQ is at Off Centre Camp.

11 MEDIA BOOTH

Members of the media and documentary filmmakers, this is where you register on site and can get info on where to find representatives of AfrikaBurn for handy quotes and interviews. The Friday morning Media session will be at 11am in the Media tent at the OCC.

12 ICE, ICE, BABY

14 THE MIGHTY MOOP MARCH

Saturday at 2pm, from Off Center Camp. We got Mutant Vehicles, we got good tunes, we got the MC Raphael, we got MOOP bags to give away, we got a Mission and a Purpose: Spread the message of Leave No Trace love while hitting every pub in town! Bring a flag, a banner and a bag, come dressed up and join us as we walk the talk and swoop and de-MOOP. THIS MUST BE THE PLACE (89)

THE LANGUAGE COLLECTIVE

There is a not so fine line between space and place. Space is something abstract, without any substantial meaning, while place refers to how people are aware of or attracted to a certain piece of space. A place can be seen as space that has a particular meaning, and phenomenology tries to find the essential features of experiences in the direct and indirect experiences of space/place. Confused? Well all you need to know is this must be the place. Now come and find it!

ROBERT BOSE

The residents of Tankwa Town are invited to help build the installation, hold onto it, walk around or bike around the desert with the line of balloons attached to them.

BOOBALOOB (BIRTHDAY SUITES CAMP, 9:45-ISH AND BINNEKRING)

TRACY FAULDS

As infants, each one of us depended on the magnificent human structure that is the breast, a magical vehicle for feeding, protection, growth, nurturing and love. Sub-: under or below a particular level or thing

Terra: land or territory

Fuge: expelling or dispelling either a specified thing or in a specified way

Subterfuge: deceit used in order to achieve one's goal.

Subterfuge was built for AfrikaBurn 2014 as an attempt to comment on and raise awareness and resistance, not only to the fracking of the Karoo, but to all selfish profit driven destruction of the last few areas of natural wonder still left on the planet. In 2015 the structure will burn, but we hope that its message will remain. Thank you to everyone that has made this possible.

Dissipate represents the impermanence

tensegrity structure.

RETREE (7)

JEZEBEL

Landfills and ocean gyres grow every time we throw away what we could reduce, reuse or recycle. The Sacred Fire holds the sacred flame of the burn. It is a silent space of ceremony, cared

THE TANKWA TOWN GIFT DECLARATIONS REGISTER (13)

THE TANKWA TOWN GOOD GOVERNANCE AUTHORITY

Gifting is the cornerstone of the Tankwa (anti) economy. The Tankwa Town Good Governance Authority now requires that gift declarations be made. Declaring gifts is a deeply personal and reflective process that reminds us to be thankful for what we have and for what we are given. It helps us be sensitive to all things gifted. A hug. A conversation. Fire Pools. Security Upgrades. Being deeply moved by an artwork. Falling in love with Everything. The guaranteed anonymity of declarations frees us from fear of the Omnipresent Tax Man and Moral Police. Come and make your beautiful mark for Good Governance!

within our souls. To see like children and never grow old. To see above we must go below. To shave down the tall grass and cast long shadows. To shade those who follow and confuse those with arrows. We clear this space to empty our minds. To channel pure spirit and incubate time. To look inside ourselves to see if we can see outside of ourselves and see nature for this precious heritage to keep within the reach of our children ...

If you see the animals on the ZEFari Rover, jump aboard the migration on the luminous plains of foreverness. Only one rule: Don't feed the humans.

MUTEA

FIRE IN THE SKY

In the hours of dawn and dusk a distant chant can be heard. It belongs to a tribe known as the Afreakins. Guided by their Shaman, they welcome in the new day or bless the descending dark with an ancient ritual. It is at this time that they share their unusual drink, MuTeA, which has ever-changing flavour and aroma. In the heat of the day they ride forth to create temporary places of shelter and to offer weary travellers the gift of refreshing MuTeA. Keep your eyes open for these mystical agents of the gifting spirit!

We will move around randomly, far and wide with our performances, but one event is more fixed: we will be participating in the build-up to the big Satori show on **Thursday** - look for Satori after dark and you will find us there!

PRAYER TO THE NEW MOON

NEW MOON COLLECTIVE

In the early evening we hear the sound of drums and trumpets from afar. A ritual performance led by half-animal half-man stilted beings begins. Into the evening space emerges the creature, heavy and pregnant. She is unruly and needs to be held back and controlled by tall mythical horned guardians (inspired by the /Xam mythology). As her time is near, she bucks and arches and seems to be reaching up to the twilight sky...searching. A ring of fire will be lit to assist her, and when her time comes she will release the moon into the night sky. In the process a girl will be taken with the moon to be born into the evening sky above. Having undergone a full transformation and been given new life, she withers away with the fading sun. This is a moving performance in the **Binnekring**: keep an eye out for our stiltwalkers who will bid farewell to the sunset and bring out the new moon. The performance is weather dependent and will commence before sunset on the first good weather day.

When: When the weather suits

Where: A procession around the Binnekring, watch out for a giant floating full moon and a ring of fire, this will signal the start!

THE CHURCH OF MEMNOC

The players trace complex, chaotic, emergent patterns of swirling light and colour: a giant, self-generating visual spectacle, powered by the drive to run for the disc. Commentators discuss the absurdity of sport. The show evolves as new Burners replace firing players. Memnoc commands you - come and play!

TE-RAZ THE DEEP TANKWA DRAGON

Te-Raz the Deep Tankwa Dragon was unearthed by a group of musical misfits in the plains of the Tankwa Karoo. After a most arduous dig, Te-Raz was awoken from his slumber and enticed to rise again. His spirit, still strong in his remains, now travel with the misfits. When the skies align you can hear his roar over the plains. The sweetest melodies and the phattest bass will leave all in awe....

If you do not have purple attire you may be married outside the purple cordoned off area. Purple dress code will be enforced by Bishop Loons gatekeepers. Purple bin bags will be provided to make last minute outfits, but no one will be permitted in the church without the correct cult attire.

HÄMONI

All our souls are threaded with the strings of goodbyes, of ends. But alongside this there is a design of balance. The Japanese call it Hamon, the moment when several factors work together in unison to produce utter beauty. One cannot be experienced without the other. We invite you all to join us at the base of Satori just before sunset. Through deep, melodious music we compose a guided meditation to find a moment of Hämoni, a moment where we are reminded that life is even more

beautiful for having hardship within it. Bring along something comfortable to sit on, an open mind and a receiving heart, and come and join us and Tony the Love Bus from Tony's Tarantism for this moment of Beauty and Healing.

BURN SCHEDULE 2015

As with all things in Tankwa Town, we invoke the gospel of "ish". These burn times may change due to artists whim, health and safety considerations or the mighty desert weather. Please check the Updated Burn Schedule board at Arteria at Off-Centre Camp (between 8-ish and 9ish on Binnekking Rd) for the latest info. If you don't want to miss a burn, a good tip is to look to the horizon and go to where you see people gathering. If there is a burn perimeter, there is a good chance that something is about to burn.

SUBTERRAFUGE

As you might have noticed from last year, scheduling the burn of this behemoth is a bit complicated. Subterrufuge will burn as soon as we have a windless or good wind direction moment. The plan is to burn it on Friday, Saturday or Sunday, weather depending. The weather will be checked and a decision made based on that. A red flag will go up a few hours before ignition at the structure – and a notice will be placed on the Updated Burn schedule board.
