WELCOME HOME

here's
what's
new
this year

Radio Free Tankwa is your community radio station. Tune into 99.9FM and sit back and enjoy - it's where you'll hear important news bulletins, updates on weather, road conditions and any changes to project schedules. Got a project? Head to the studio at OCC and record a Public Service Announcement.

After a lot of discussion (at Town Halls, on social media and with many project crews and long-standing community members), we've moved the Loud Zone into a new area - the end of Zish. Take a look at this year's map to get a sense of where the most sound will be found.

Part of the same conversation has been to test a silent period this year - and this means that from Monday to Thursday mornings, no amplified music will be allowed between 7am - 11am. Campers, remember: don't be kak with loud systems at night. Be lekker to your neighbours: switch off at 11pm.

Walk-In Camping is still that: an area where cars are not allowed. A word of caution: Walk-In is now near the Loud Zone, so if it's quiet you're after, consult your map and consider camping elsewhere.

RECREATIONAL DRONES ARE NOT ALLOWED. Civil Aviation Authority rules don't permit unlicensed drones anywhere near an operational airport - and we have one of those. If unlicensed drones fly in our sky, our airport will be shut down, ending medical evacuation flights. Don't do it.

Suppliers this year cannot access the city until you or a member of your crew meet them at the Supplier Depot at Die Hek to escort them to your site. Expecting a delivery? Head to the gate to meet them to escort them to your camp location.

Camping is not allowed in any watercourses - because flash floods happen here, and they will destroy your camp. We're dead serious: our **NO CAMPING BEYOND THIS POINT** signs are there for a very good reason.

This year, we have Campsite Managers - and they each have a zone they take care of. If you have questions about your patch, or how things work, look out for them: they're there to help you.

Your vehicle will be pulsed again during Exodus. Please chill as you wait - and make the most of your time by checking your load (so nothing falls off on the R355) and listening into Radio Free Tankwa on 99.9FM for road safety updates & tips.

On your return to the default world, please feel free to stop off at Ceres, Calvinia (or De Doorns on the N1), each of which members of the business community from surrounding towns will welcome you, and allow you to drop off your waste at designated locations whilst you fill up on fuel or snacks. Please be respectful of surrounding communities - do not dump any trash on the road.

EVENT SERVICES

87 OFF-CENTRE CAMP

This is where most things related to volunteering happen. It's the community hub of our event and an open space for everybody who wants to be involved. The Volunteer Booth is where volunteers check in and can sign up for a shift and get any event info. OCC is also home to Kids' Registration, and Just In(e), our Lost & Found hut. The OCC Stage is where a line up of interesting shows, music and performances happen. Want to perform, or give a talk? Come on over and chat to the team. Need to hook up with a friend? Find a lift? Leave a note? There are blackboards galore to do just that.

OCC is open 9am-7pm, Mon - Wed of event and 9am-5pm Thursday to Monday. Come and visit, chill, enquire, sign up or just shoot the breeze. Ice cream happens every afternoon. Come on over, we can't wait to meet you.

RANGERS

Rangers are non-confrontational skilled mediators who come from the community and act on behalf of the community. They gift their time, skills and energy to promote the 11 principles, and keep us aware of possible dangers. There are various different levels of Rangers - and they have a space for you. If you'd like to train up and join The Orange, look out for the Orange Ranger HQ at OCC pop in and say hello or join our onsite training on Tuesday 24th, Wednesday 25th and Friday 27th from 9am-1pm to find out more.

VOLUNTEERS

It takes nearly 4 000 volunteers to run this city - and they take many dozens of forms: Greeters, Ice, Die Hek, Lost & Found, Kids Registration, Airport, Fire Perimeter... the list is endless, and there are definitely ways of volunteering that would suit you and whatever skills or interests you have. If you'd like to volunteer, head over to the Volunteer Station at OCC and prepare to be welcomed with open arms!

129 MEDICS?

Headaches and hangovers? Sorry, they're not emergencies. Our medics are there to assist in emergencies only - so for all other medical stuff, be self-reliant and use your medical kit. Look for the big red cross and inform your campmates of where to find them if needed. Located at Off-Centre Camp.

TANKWA TOWN CLINIC

The Clinic will provide Primary Health Care services for day-to-day illnesses, and minor wounds - the kind of stuff you see your GP for. So if you're feeling ill or you need follow up on injuries, you'll be able to use the clinic. It will also offer WTF sexual health services for

129 SANCTUARY

A quiet space for participants who are having a rough time of it. If you have a psychological emergency, this is where you can find calm and sanctuary. For more information check with the Rangers or Medics. Located at OCC. This year Sanctuary also includes the CuddlePod which is a sickbay for those needing more intense TLC. Please note: Sanctuary is NOT A DRUNK TANK.

ARTERIA

Got art? This is where you check in with our Art Wranglers to get advice on placement and technical assistance from volunteers. It's also where you can check out a large map of all registered artworks.

67 DEPARTMENT OF MUTANT VEHICLES

If you've brought a Mutant Vehicle this is where you come to license it to drive in Tankwa Town. Remember to bring your registration number. Meet sporty horny types in short skirts playing pool and handing out traffic fines. The home of oxtail potjies, gifted coffee, the small LRP and delicious craft beer. Located at 6ish.

DIE YSKAS

Our Ice station, where you can find the only thing sold in Tankwa Town. Open daily from 11am-1pm, Monday to Saturday. Located at Off-Centre Camp.

MEDIA CENTRE

This is where photographers, media and film-makers pick up their accreditation and can get info on how things work in our city. Located at OCC.

ARTEFACTORY

A small museum for enthusiasts seeking to learn more about the 11 principles, past events and creative initiatives, which are detailed in displays and on a touch screen TV. Comes with rooftop viewing deck and chill zone. Located in our famous 12m CARGO container (yes, it did go to Burning Man).

OUTREACH

This is where you can find out about our Outreach initiatives at our info centre and touch screen system. Bring your donations here and drop them off in the wooden fruit bins. Bicycles can be left on the bike racks. Please no left over, spoil or broken goods, thanks.

AIRSTRIP

Take a look at the map to see where our airstrip, and helipad are – and please don't go anywhere near them, even if it looks cool. Planes are fascinating for the kids but also very dangerous – please never touch them, or go close, without the pilot. They bite.

DRONES

Recreational drones & model airplanes cannot be flown in Tankwa Town at all (because of Civil Aviation Authority regulations). If you're one of the few licensed professional drone operators in South Africa, you'd know that you'd have had to register your drone on our website, and also have to meet our Airspace team here on site to OK your use of a licensed drone. If your mate has a drone and they're all like 'Nah, who cares – I'm gonna fly!', ask them to think about the fact that if unlicensed drones fly here, our airport will get shut down – which means we cannot evacuate medical patients.

TOILETS

If it didn't come outta your body, it doesn't go in the potty. Our new throne toilets are all round the edge of the camping areas and some are in the Binnekking. Use them! No more longdrops or porta potties – get on your throne and you'll still get a lovely view. Look for the chimneys and lights. A red flag means it is out of order, please use the next one. And the red triangle? – Those are kitted with tampon bins: use those rather than chucking tampons in toilets, thanks. **AND PLEASE PUT THE PAPER BAG IN THE BUCKET** (if you don't, the wind will create white paper ribbons all over the Tankwa, which is severely kak for our LNT crew).

RADIO FREE TANKWA

Tune into 99.9FM and turn on: Radio Free Tankwa is on air 24/7. Got an instrument? Interested in playing a DJ set? Want to record a Public Service Announcement to get your project info out there? Come on over to the RFT studio caravan at OCC – we're live on air every day from 8ish to fish with important news, updates on project schedules and a whole lot of amazing music. Got an FM radio? Use it to get the latest updates.

LEAVE NO TRACE

This is our volunteer team that makes sure we turn Tankwa Town back into the Tankwa Karoo. Meet up at OCC during the week every day at 3pm and on Saturday and Sunday at 9am and do the MOOP Walk. Bring your MOOP bags and your buddies (don't worry if you don't have either of these, they'll be provided!)

MOOP SWOOP!

On Friday at 2pm all the MOOP warriors will gather at OCC, MOOP bags in hand and set off all around the Binnekking to spread the gospel of Leave No Trace. This procession is a whole lot of fun – so pull in, dress up, and let's do the MOOP SWOOP! Oh... did we mention it's a pub crawl too? Now you know.

FLUFFERS

The Fluff saves the day – of all those hard-working project crews and volunteers out there who create the magic in Tankwa Town. If you love caring for people, you can join the Fluffers. You may already be a member...

This is how it works:

Everything you see in Tankwa Town – including all the Artworks, Theme Camps, Mutant Vehicles and associated items – has been created by people just like you, who have worked their asses off to create something special.

Please respect the creations and creators – unless there's an explicit invitation to interact with a piece, leave it as you found it, thanks.

Exoticism has moved from musical style to tea, with one of the finest selections of rare leaves the orient has even seen. Please do not include us the WTF Guide. We like to be deep and mysterious and keep people guessing. No, we will NOT sacrifice the chicken. OK, maybe - but we don't have a chicken. New Beginnings brings the hot water, and the showers, and the biodegradable soap, and the fun. Every day, from sunrise to sunset, you're welcome to come over and have a shower, on us. Arkology is an evolving exploration of the fusion of art & technology, and how both elements may achieve synergy at the intersection of the human mind. Our 2018 stage will mark the beginning of this exploration, emerging in the blank canvas of the desert as a space to co-create and play with one-another at this extraordinary juncture in the evolution of our planet. Our hope is that Arkology 2018 symbolises for many that which cannot be articulated in words.

4 AARDVARK UNSET

1 ARTVARK TAXI ASSOCIATION

The philosophy is very simple: enjoyment. One of our most favourite things at the burn is appreciating the sunrises and sunsets, something we may have taken for granted in the "alternate" world. As a group it is the one thing we try to do together and it is great to meet up with a whole host of other burners and share drinks, treats, etc.

27 COMING HOME

EMZANTS!

Come and visit our memorial. We have produced this work through an extensive process of collaboration. Almost everything in it is made by hand by a different person. Each flag, each note each message each sign, each confession has been sent here by people who for whatever reason couldn't come but wanted to share themselves, their worlds with you. It's an invitation: come and unlock, unpack, reveal, enjoy—secrets, confessions and messages. In bags, in boxes, in lockets and bottles in old letters and photos, memorabilia and history from black, white, coloured, Indian, rich, poor, old, young men and women and children. And then leave something behind. Respond to a confession, leave a note a gift a reciprocation. Let someone know you heard their story, shared an experience, acknowledge the unacknowledged.

15 FINE BALANCE

A FINE BALANCE

Inspired by Zimbabwe's balancing rocks, an insignia on the country's currency which has devalued significantly to the point where today, it has no value outside of the country and barter is an acceptable form of trade (no gifting, yet!). The economy is suspended, in a state of 'fine balance' rather than emergency. The structure is inspired by the decommodification of the currency, and will incorporate the symbolism of burning a note in the finale.

HAHALUA

Hahaluha, the name of the Manta Ray, interpreted as two breaths. 'Ha' meaning breath and 'lua' meaning two. Manta rays leaping from the water are a symbol of transcendence of knowledge from the depths, into our sphere. By honouring the beauty of these mysterious creatures the artwork aims to make us realise that, even though we don't see most other forms of life on a daily basis, doesn't mean that they don't exist. The intimate link we have with nature is one to be celebrated, embraced and taken care of. Come pause with us, take a breath or two.

JOURNEY OF THE SHRINE OF LOST MOMENTS

In December 2016, a tragic attack hit near one of the memorial places in Berlin at Gedächtniskirche (Church of Memory in Berlin). A man drove a heavy truck into the crowded Christmas market. Twelve women and men came to death, other were heavily injured. This incident inspired us. 23 LIGHTBRIDGE

nonDU

The Lightbridge is an experiential space exploring the threshold between the idealised state and mundane reality. We aim to transcend the traditional notion of change as a radical departure from one reality into another, emphasizing that the greatest transformations we undergo are when we simply view the same reality through a different lens, with a different attitude. The Playa is a place of miracles, where tired conceptions are shattered and new paradigms are forged in the heat of every burn. In this spirit we bring you Lightbridge: a liminal space within a greater liminality, a rabbit-hole from here to here.

MAGNA CARTA

Following on from the success of 'Love' and 'Magic', the letter art crew are again creating word art in 2018. The keyword is 'Joy', inspired by the name of the youngest member of the crew and by the concept of Joy and being joyful. The incorporation of other words to create a tagline that can be applied as affirmation or encouragement to everyone is new. 'YOU R JOY' can be read in a few ways and the idea is to remind everyone that they are indeed, a joy - to burn with, to live with, to share this planet with.

2 MEIÖMAR MEIÖMAR

The Viking clan had found Valhalla, they had found HOME. On board their little post-apocalyptic ship Vicky Ragnarok, they carry a mystical chest filled with boundless treasures. The chest had been guarded by fire breathing dragons in the heart of Ragnarok for centuries before but now it has made it's way HOME to the dusty Tankwa. A treasure chest you ask? A marvelous box full of cherished & coveted treasures & trinkets which were gathered on their many raids. In the spirit of AfrikaBurn (and because our clan are generally fun-loving warriors) we wish to share our treasures with you but listen carefully as there is a catch... Take an item that means something to you then pay it forward & leave something for those who will come after you. If you do not, Odin will reign fire on you & you will be banished as Loki was banished once before. Just kidding, but please respect your fellow burners.

"There is No Key to Happiness - The door is always open"
The Open the Door installation is an interactive piece which aims to encourage the Tankwa citizens to open the door and walk through to the other side. What lies beyond any door in life is always kind of unknown, so we could say that the life beyond the door needs a "working title". Feel free to use the space for your own happening, performance, music and dance - the door is always open!

17 PANDORA MIXED TAPE MUSOS

Zeus declared man did not deserve fire, but the kind-hearted Prometheus shared the secret anyway. As punishment, Zeus sneakily went after his brother, Epimetheus. He ordered Hephaestus, the Maker, to make the beautiful Pandora out of clay, and introduced her to the lonely Epimetheus. It was love at first sight and soon the two got married. Zeus gave the pair a lovely box as a wedding gift, but it was locked, with a note saying "Do not open". The rest is history... With fire we end it - we banish, in the moment, all the evils that escaped from the box, and celebrate the last remaining thing that escaped.

PINEAPPLE BAR SUPA-DUPA FAMILY KARAVAN

This is a good example of how mysterious art can be when it has no listing blurb.

52 POLY (CH2H4)

Polyethylene: the main component used to manufacture the excessive amount of plastic bags that we consume. Collected from people's homes lying dormant in kitchen cupboards, thousands of plastic bags have been crocheted by many hands to make this up-cycled cuboid room. Walk inside this shady plastic wonderland and be consumed by psychedelic colours, organic patterns and multitudes of stitches. Enjoy the beauty of Poly in Tankwa Town, but take note of its environmental concern.

PROMETHEUS NEST OF MAGICAL CREATURES

Prometheus is a magical creature coming to Tankwa for the first time. He heard about the burn from Molly the Mollusc

who is a regular in Tankwa Town, so you are likely to see them around the Playa together. He uses camouflage during the day to blend in. He tries to disguise himself as a butterfly, but at night he really shines. He's not shy, and likes to move around, so if you see him, come and say hi, but please remember, gravity in this dimension is different to where he comes from, so his movement is restricted, and please don't try to climb up him, he really doesn't like that. Remember, consent is everything.

SIT WITH ME WEAVERY

'Sit with me' is an interactive installation and sculptural piece. The sculptural element will consist of a life-sized figure woven from natural fibres sitting cross-legged, staring out to the distance. The word "breathe" will be in line with the figure's (and viewer's) gaze, 8 - 10m away. Alongside the figure will lie a number of woven mats/cushions as an invitation for viewers to participate, by taking a seat to meditate. Tibetan bowl and /or bells and possibly a djerdido will accompany the meditating practice by providing sonic cues. Participants will be invited to weave mats for them sit on, by facilitated weaving workshops and demonstration by the artist, at selected times.

12 SKELETON LEAF OF CHANGE KIARA WATERMEYER & CREW

For the first time, the artwork is and will be solely designed,

curated and built by an all-female crew in an act of feminine energy that is purposely a tribute to Mother Earth. This nurturing energy will weave and form a leaf reduced to its skeletal veined state, using wattle, weed, wax and impeloh, celebrating the land and our ancestors. Symbolic of growth and change of self and environment, the artwork will be gifted as a cleansing experience to the mother and burners. The space will host holistic/conscious events involving instrumental music sessions and sacred sound healing journeys, meditation, energy healing workshops etc.

This piece is our interpretation of the collective's spirit animal, the Rhino. The sculpture is the futuristic and intergalactic version of this powerful and graceful animal. The sound reactive LEDs will make it an ever-present spirit on the Playa.

SPINNING WOOD ART SPINNING WOOD ART

The artwork consists of a treacle lathe manufactured from wood and steel. The various components of the lathe move including the work piece on which I create the round art work. My wife is responsible for the finishing of the turned pieces that we will gift. The lathe is collapsible and we plan to transport it to different locations within the site thereby creating maximum exposure of the art form to Burners. We will demonstrate the art of turning through our creations including candle sticks, magic wands, honey dippers and massage rollers.

55 TAJ MIRAGE: LIFE: ETERNAL LIFE TAJ MIRAGE 2018

Our installation will be interactive, consisting of a 3x2 metre wooden Ankh (an Ancient Egyptian hieroglyph symbolising 'life'), and a handloom to weave a fabric representing the threads of our human experiences. Burners write the essence of their life experience on a strip of fabric (provided), which is then woven into the loom to create a piece that captures the shared spirit of AfrikaBurn - one of multiple textures and colours. We aim to create a new piece each year. What could eventually be made of all of these shared 'experiences' is something that only time will tell.

Through various games and scenes we break down walls and barriers and judgements we've set for ourselves and instead become more playful, adaptive and resilient as we embrace life's truths, absurdities, and realities through a new set of eyes.

Remember this:
Everything in our city is subject to the mighty "-ish". If the crew involved change their minds, then their scheduled time will change. And if the weather decides to change its mind, then things will also change, because Mother Nature calls the shots out here. Listen to your Mother - she knows best (and watch her carefully, if you plan to make a date to catch any of the events listed here).

If the listing doesn't show a time, head over to the location and check in with the crew responsible. Another good idea is to head over to OCC and check the chalkboards there. Relax: nothing's under control.

PERIMETER BASICS

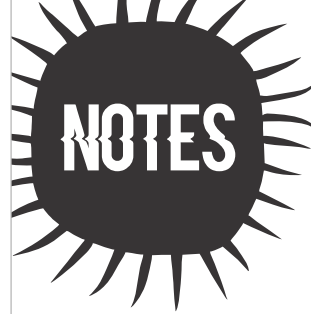

Every burn has a Fire Perimeter, and it's
there to keep us all safe. To make sure
every burn runs smoothly, please pay
attention to the following tips:

- ▶ If you arrive by bike, lock it & leave it at least 50m away from the perimeter. When wind changes direction or embers come down, people move - and anything in their way becomes a major hazard. Please consider this in terms of bikes - and also Mutant Vehicles.
- ▶ Please **DO NOT USE LASER POINTERS - THEY CAUSE PERMANENT BLINDNESS** if they are pointed into a person's eye.
- ▶ When you arrive, settle in by sitting down. Standing forces others to try and get ahead of you, which causes encroachment of the safety perimeter line.
- ▶ If you're part of a Mutant Vehicle crew, **DO NOT PARK CLOSE TO THE PERIMETER LINE.** If Mutant Patrol request that you move further back, please assist them by doing so, with the assistance of your crew as walkers.
- ▶ If Perimeter Marshalls or Safety crew ask you to move away, it will be for a very good reason: please listen to them.

UNTIL NEXT TIME!

PLEASE GET
HOME SAFELY

- ▶ BEFORE YOU LEAVE, CHECK YOUR LOAD TO MAKE SURE NOTHING WILL FALL OFF
- ▶ PLEASE DO NOT DUMP ANYTHING ON THE ROAD - TAKE IT HOME AND RECYCLE IT
- ▶ DO NOT OVERTAKE IF YOU CANNOT SEE CLEARLY AHEAD
- ▶ DON'T SPEED
- ▶ SLOW VEHICLES, PULL OVER AT REST STOPS TO LET OTHERS PASS BY SAFELY

ON EXODUS...

As you leave Tankwa Town, you will be pulsed on exit. Chill - tune into Radio Free Tankwa on 99.9FM for the latest road updates. While you wait in the queue, get out and check your load to make 110% sure nothing can fall off on the bumpy road. Take the time to check all your ropes & straps, and any items on top of your racks/trailer - if you like your bike, tent, bags etc, make sure they won't be shaken loose and become the cause of an accident for vehicles that are behind you.
