

WTF
2019
GUIDE 

AERIKABURN
TANKWA KAROO 29 APRIL TO 5 MAY

WELCOME HOME

HERE ARE SOME IMPORTANT UPDATES TO HELP YOU MAKE THE MOST OF YOUR TIME IN TANKWA TOWN.

👉 Tune into Radio Free Tankwa on 99.9FM - it's where you'll hear important news bulletins, updates on weather, road conditions and any changes to project schedules.

👉 The Loud Zone is again found at the end of 2ish street. Take a look at the map here in your guide to get a sense of where to find sound rigs - and if you've brought a sound rig that's not part of a registered camp, **PLEASE** play it cool with your neighbours, and keep it chilled; don't be kak with loud systems at night. Be lekker to your neighbours: switch off at 11pm.

👉 Our silent period this year is again from Monday to Wednesday mornings, when no amplified is allowed between 4am - 11am. This includes generators - which **MUST** be soundproofed.

👉 **RECREATIONAL DRONES ARE NOT ALLOWED.** Civil Aviation Authority rules do not permit unlicensed drones anywhere near an operational airport - and we have one of those. If unlicensed drones fly in our sky, our airport will be shut down, ending medical evacuation flights. Don't do it.

👉 **Mass Incident Evacuation:** this year, on the map included in this guide, and also on our You Are Here maps (which you'll find attached to streetpops throughout Tankwa Town) you'll notice that our site is split into four Zones, and also evacuation indicators and gathering points. These are in place so that in the unlikely event of a serious flash flood, or a large fire, you're able to orientate yourself and know where to go, to stay safe.

👉 Suppliers delivering materials or large stretch tents cannot access the city until you or a member of your crew meet them

at the Supplier Depot at Die Hek to escort them to your site. Expecting a delivery? Head to the Supplier Gate to meet them.

👉 We're expecting heavy rain this year - so (as always) **DO NOT CAMP IN WATERCOURSES.** Flash floods happen there, and they will destroy your camp.

👉 Exodus this year will again pulse you on exit. Please chill as you wait - and make the most of your time by checking your load (so nothing falls off on the R355) and listening in for road safety updates on Radio Free Tankwa.

👉 As & when you wait to leave Tankwa Town on Welcome Rd, feel free to take the time to donate any unwanted (and unopened) water, beverages, long-life milk, dry goods and snacks - it's all really appreciated by our DPW and Leave No Trace volunteers, who stay on for weeks after you leave, and the kids at the local school (Elandsvlei) and hostel (Brakfontein) that AfrikaBurn supports year-round.

👉 Our toilets are kinda new - we rolled them out last year. Now here's the thing: in order for flies to stay out of the toilet, **CLOSE THE LID.** And in order for our Throne Crew to pump our Loos With Views, **DO NOT DROP ANY FOREIGN OBJECTS INTO THE TOILET.** If our pumps can't work, then our toilets can't work... and you can figure out why that's a kak idea.

👉 On Monday night of our event we will burn a Hat. This hat is built by members of our Art Committee, in honor of Larry Harvey, co-founder of Burning Man who passed away last year on the 28th April, the night our Temple burned. We do this to honour him and cultural reverberations that his impulse instigated globally.

EVENT SERVICES

OFF-CENTRE CAMP

This is where most things related to volunteering happen. It's the community hub of our event and an open space for everybody who wants to be involved. The **Volunteer Booth** is where volunteers **check in** and can **sign up** for a shift, and get any **event info**. OCC is also home to Kids Registration, Fluffers & Lost & Found. The OCC Stage is where a lineup of interesting shows, music and performances happen. Want to perform, or give a talk? Come on over and chat to the team. Need to hook up with a friend? Find a lift? Leave a note? There are blackboards galore to do just that. **OCC** is open from **9:30 am - 6pm Monday to Saturday** and **10:00 am - 5 pm Sunday**. Come over and visit, chill, enquire, sign up or just shoot the breeze, we can't wait to meet you.

RANGERS

Rangers are participants who volunteer as non-confrontational community mediators. They gift their time, skills and energy to promote the 11 Principles, provide reliable information, and facilitate the safety and well-being of our community.

Day and night, pairs of Rangers in orange vests can be found walking

and bicycling the streets of Tankwa Town, engaging with the community, enjoying the art, and helping out. Others work in special teams such as Shift Leadership, Fire Perimeter, and Green Dots.

If you'd like to learn more, or train up and join, look out for the orange Ranger HQ container at Off-Centre Camp (OCC). Come chat with us. You're welcome to pop in and say hello, or you may join our onsite training on Monday 29th and Wednesday 1st from 9:30am - 1:30pm.

VOLUNTEERS

Statistics show it takes 1000+ volunteers to fill the 4000+ shifts to run this city helping with Die Hek, Box Office, Greeters, Airport, Fire Perimeter... the list is endless. Help ease the load, head over to **The Volunteer Hub at OCC** to find out about available volunteer opportunities, we guarantee there will be something that tickles your fancy, we'll welcome you with open arms!

MEDICS?

Headaches, dust in your eyes and hangovers? Sorry, they're not emergencies. Our medics are there to assist in emergencies only - so for all other medical stuff, be self-reliant and

use your medical kit. Look for the big red cross and inform your campmates of where to find them if needed. Located at Off-Centre Camp.

TANKWA TOWN CLINIC

The Clinic will provide Primary Health Care services for day to day illnesses, and minor wounds - the kind of stuff you see your GP for. So if you are feeling ill or you need follow up on injuries, you'll be able to use the clinic. It will also offer WTF sexual health services: unprotected sex, morning after pill, bladder infections treatment and sex play protection like condoms/lube/dental dams etc. After hours ask @ Sanctuary.

SANCTUARY

A quiet space for participants who are having a rough time of it. If you have a psychological emergency, this is where you can find calm and sanctuary. For more information check with the Rangers or Medics. **Located at OCC.**

ARTERIA

Got art? This is where you check in with our Art Wranglers to get advice on placement and technical assistance from volunteers. It's also where you can check out a large map of all registered artworks.

DEPARTMENT OF MUTANT VEHICLES

If you've brought a Mutant Vehicle this is where you come to license it to drive in Tankwa Town. Remember to bring your registration number. Meet

sporty horny types in short skirts playing pool and handing out traffic fines. The home of oxtail potjies, gifted coffee and the smell of LRP and delicious craft beer. Located at 6ish.

DIE YSKAS

Our ice station, where you can find the only thing sold in Tankwa Town. Open daily from 11am -1pm, Monday to Saturday. Located at Off-Centre Camp.

MEDIA CENTRE

This is where photographers, media and filmmakers pick up their accreditation and can get info on how things work in our city. Located at OCC opposite Arteria.

ARTEFACTORY

A small museum for enthusiasts seeking to learn more about the 11 principles and past events and creative initiatives, which are detailed in displays and on a touch screen TV. Comes with rooftop viewing deck and chill zone. Housed in our famous 12m CARGO container which went to Burning Man in 2011.

OUTREACH

This is where you can find out about our Outreach initiatives at our info centre and touch screen system. Bring your donations here and drop them off in the wooden fruit bins. Bicycles can be left on the bike racks. Please no left over, spoilt or broken goods, thanks.

AIRSTRIP

Take a look at the map to see where our airstrip, and helipad are - and please don't go anywhere near them, even if it looks cool. Planes are fascinating for the kids but also very dangerous - please never touch them, or go close, without the pilot. They bite.

DRONES

Recreational drones & model airplanes cannot be flown in Tankwa Town at all (because of Civil Aviation Authority regulations). If you're one of the few licensed professional drone operators in South Africa, you'd know that you have to meet our Airspace team to OK your use of a drone on our event site. If your mate has a drone and they're all like 'Nah, who cares - I'm gonna fly!', ask them to think about the fact that if unlicensed drones fly here, our airport will get shut down - which means we cannot evacuate medical patients.

TOILETS

If it didn't come outta your body, it doesn't go in the potty. Our new throne toilets are all round the edge of the camping areas and some are in the Binnekring. Use them! No more longdrops or porta potties - get on your throne and you'll still get a lovely view. Look for the chimneys and lights. A red flag means it is out of order, please use the next one. And the red triangle? Those are toilets kitted with tampon bins: use those rather than chucking

tampons in toilets, thanks. **AND PLEASE PUT THE PAPER BACK IN THE BUCKET** (if you don't, the wind will create white paper ribbons all over the Tankwa, which is severely kak for our LNT crew).

RADIO FREE TANKWA

Tune into 99.9FM and turn on: Radio Free Tankwa is on air 24/7. Got an instrument? Want to record a Public Service announcement to get your project info out there? Come on over to the RFT studio caravan at OCC - we're live on air every day from 8ish to 6ish with important news, updates on project schedules and a whole lot of amazing music. Got an FM radio? Use it to get the latest updates.

LEAVE NO TRACE

This is our volunteer team that makes sure we turn Tankwa Town back into the Tankwa Karoo after everyone's headed home. Meet up at OCC during the week every day at 3pm and on Saturday and Sunday at 9am and do the MOOP Walk. Bring your MOOP bags and your buddies (don't worry if you don't have either of these, they'll be provided!).

MOOP SWOOP?

On Friday at 2pm all the MOOP warriors will gather at OCC, MOOP bags in hand and set off all around the Binnekring to spread the gospel of Leave No Trace. This procession is a whole lot of fun - so pull in, dress up, and let's do the MOOP SWOOP! Oh, and did we mention it's a pubcrawl too? Now you know.

FLUFFERS

The Fluff saves the day - of all those hard-working project crews out there who create the magic in Tankwa Town. If you love caring for people, you can join the Fluffers! Just head over to the Volunteer Booth at Off-Centre Camp to enquire about how to get involved.

EVENT GUARDIANS

These are the good folk who keep us safe from harm, and they're also the people we turn to if & when something serious happens. You'll know them by the Event Guardians t-shirts they wear, and you can find them throughout Tankwa Town. If you'd like to report something, look about for one of their team - or come over to Off-Centre Camp, where you'll find their base located next to the double-decker bus.

SOUTH AFRICAN POLICE SERVICE

As at any large event, the SAPS are required to be present in terms of event legislation. They're here to make sure that any serious matters are handled promptly. Their base is located at our Venue Operations Centre (located behind Off-Centre Camp).

QUIVER TREE

THEME CAMPS

THIS IS HOW IT WORKS:

Everything you see in Tankwa Town - including all the Artworks, Theme Camps, Mutant Vehicles and associated items - has been created by people just like you, who have worked their asses off to create something special. Please respect the creations and creators - unless there's an explicit invitation to interact with a piece, leave it as you found it, thanks.

things we see before we go to sleep and one of the first things we see when we awake and everything in between is a temporary state of mind, a ephemerality, lasting only briefly. *This is my dream, what's yours...?"*

53 **CONSENT FREE ZONE** CONSENT FREE ZONE

A space dedicated to consent, or rather, the lack thereof. This is a consent conversation project but instead of speaking about the don'ts, it attempts to get people to talk about consent from what they would do in space if consent was not a factor, and if a sectioned off area is consent-free, what does that say about everything outside of it? Look out for our crazy clown carts spilling out fun frolics that dare to dig deep in the dirt we all carry in this 'land of Freedom'.

Later in the day our clown carts transform into a Kulture Klash: creating a pop-up party in the desert wherever we are invited in or drawn to go. The African Baobab has for centuries existed as a refuge or home for creatures great and small. Replenishing, refreshing and sheltering; much like our community. The tree is a loose metaphor for our community and what we strive to do. Known to grow in very arid conditions much like our beloved Tankwa Town, it is a symbol of life and positivity in an environment where little can thrive; not much unlike our radical community.

KITE TRAIN

KITE TRAIN

Where does it come from? Where does it go to? Last year when they saw the 500m chain of kites across the Binnerkring somebody remarked "Oh. I didn't know they had 'Sky Bunting'". Designed by legendary kite master Phil Hatting, Kite Chain gets longer each year with the encouragement of Roger van Wyk and many assistants. If perchance you should find a red kite chain collapsed in the landscape when the wind stops please don't bundle it up! You are welcome to help us collect it if you know how and we will fly it again! It can be gathered in 50m sections of 50 kites. Each section joined with a hitch loop in the string.

Concertina them carefully together in order, kite stick on the inside, one next to the other like pages of a book. You can find us via the Rangers or Artcom on the radio channels.

MARIPOSA PERDIDA

MARIPOSA PERDIDA

Mariposa Perdida is emblematic for

"Ephemeropolis": Our life is temporary, like a butterfly that comes for a short visit. The butterfly is a symbol for transformation and the transient nature of beauty. The beauty can only be appreciated temporarily. In Native American symbolism the butterfly is a messenger from the spirit-world, bringer of dreams, part of the creation myth. After its ritual birth during the opening-ceremony of Tankwa Town, Mariposa will travel to different locations each night. His voyage will take place around sunset to art pieces, camps or dance floors to share his beauty. **Sunset**

2 **THE MIGHTY BENCH**

MARK THOMAS, BRETT BAKER AND MARCO SCHIESS

Set in the outback, beyond the binnekring and even outside the buitekering heading towards the Cederberg, you may chance upon this mighty bench, a 6 meter long sitting place for Zen rumination and contemplation.... away from the bustle, the music and the lights, growing gently and softly on the hard plate of the Tankwa Karoo. It's a monster bench made from Sugar Gum (eucalyptus cladocalyx), an environmentally friendly alien hardwood known for its density and smoothness of grain. Take a walk with 2 dozen of your closest friends - it's a 24 seater plus a photographer - and head out for quiet time at the mighty bench.

OUR STORIES & THEIRS
- AN ORAL HISTORY OF
AFRIKABURN
WORKS OF GAUL

"If it's not documented it didn't happen" - Andrew Putter

My mind and all of ours are full to the brim with stories of our adventures in Tankwa, enough to fill an extremely interesting, informative and entertaining tome of the things we've done individually and as a community. Most of these stories haven't been formally documented, they live on only in memory and I fear these stories are fading away. This project is an attempt to collect just some of them, a drop in the ocean but an attempt at least, and hopefully it'll inspire others to do

the same. Look for the flyers for instructions on how to contribute your story. You'll see them when you're meant to...

65 **PANGEA SHRINE**
PANGEA SHRINE

The eyes are the "windows to the soul." When we gaze deeply into the eyes of another person, we can see beyond their physical form and personality into their essence. The practice of eye gazing is an ancient Tantric practice. It is found in the Hindu, Buddhist and Sufi traditions and is considered to be a path to enlightenment. Find the Shrine in the plaza and take time to get to know yourself (or a complete stranger).

54 **RAINBOW LOVE FLAMES**
RAINBOW LOVE FLAMES

Chemicals allow us to perceive the entire visible light spectrum through the flames of a fire, where the different temperatures in the fire are highlighted in different colors. It reveals to us incredible beauty that has been hidden right in front of our eyes, and one can't help but ask the question: "What else have we been missing?" It's a unique case where both incandescence and luminescence occur simultaneously to showcase the true beauty of a fire. The rainbow coloured fire is beautiful and elicits feelings of joy, excitement and awe in whomever sees it. These are the colors in the soul, the emotions with which we relate to Spirit, in our own inner Sanctuary, made visible.

61 **SALUTE**
LOVE YOUR PLANET & LOKI

Salute is a tribute to Ian 'Fella' MacDonald, a beloved stalwart of the Love Your Planet and Loki crew, who we tragically lost in February 2018.

70 **SHRINE OF LOST MOMENTS**
jSOLM AND MARIPOSA PERDIDA

In December 2016, a tragic attack hit near one of the memorial places in Berlin at Gedächtniskirche (Church of Memory in Berlin). A man drove a heavy truck into the crowded Christmas market. Twelve women and men died,

and others were seriously injured. This incident inspired us to create the Shrine: a prototype travelled to Nowhere, and we built a second Shrine for BM 2017 and burned it together with the Man. Another Shrine went to Berlin Baer 2018. After Working Title in 2018, The Shrine of Lost Moments continued its journey to the Hantam Karoo as part of the BlankCanvas Express. The Shrine lit up the hearts of the rural community of Loeriesfontein (some 200km north of here) and its myriad of visitors during the spring flower season at the Fred Turner Museum, nestled amongst the windmills.

SKOPx is the 4th structure built for AfrikaBurn by SKOP. (Sutherland Kuns en Ontwikkelings Projek. / Sutherland Art and Development Project.) Previous builds were Clan 2015, ""O"" 2017, SKOP IV 2018.

The project aims to use builds such as these to develop skills, opportunities and confidence in members of the community of Sutherland. This year the project included a design aspect and the participants were given the opportunity to come up with their own designs. Individual designs were then workshoped and combined by the participants. This year, aspects of the design will also be brought back to Sutherland to form the start of a sculpture garden.

42 SKYLABYRINTH SKYLABYRINTH

A labyrinth is a meandering path, often unicursal, with a singular path leading to a center. Labyrinths are an ancient archetype dating back over 4000 years, used symbolically, as a walking meditation, choreographed dance, or site of rituals and ceremony, among other things. Labyrinths are tools for personal, psychological and spiritual transformation, also thought to enhance right-brain activity. Labyrinths evoke metaphor, sacred geometry, spiritual pilgrimage, religious practice, mindfulness, environmental art and community building.

52 SOULSTICE FLAME INSTALLATION WeR1

Fire is brilliant, exciting and warm, it captivates. Its mystery is powerful and compelling. We can't contain it, hold it, nor withstand its touch. Fire will never

be still, it is ever-changing, shifting and fluid. It hypnotises the viewer with a myriad of shapes and colours. It can only be fully experienced in the moment of its existence. It is ephemeral... Come and play with the emotions of fire, led by the beat of the music, every night at Soulstice theme camp.

55 SPYROGYRA SPYROGYRA

Spiraling revolving wind powered pan flute. This project was conceived out of the desire to harness the wind's power which often visits the Tankwa and is very often not welcome. Also the desire to create something which would bring the element of music into play. The guiding philosophy in the materials used is repurpose and recycle, the majority of mechanical and structural components are sourced from scrapyards and recycle centres and general scrounging and skollie'ing around. Spyrogyra is a prototype and development project - hopefully for greater things to come in the future.

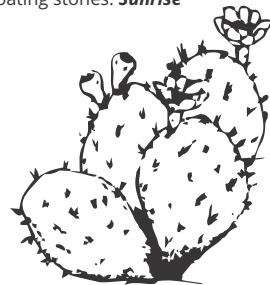

69 STEP SEQUENCER IZAN GREYLING AND SYNCHRO-NI-CITY

The Step Sequencer is an interactive mechanical music machine that operates like an old-fashioned music box. A rotating cylinder has 32 slats with triggers that are aligned with instruments that include a rhythm section, seven bass notes and seven melody notes. By changing the on/off positions of the triggers, different drum patterns, bass lines and melodies can

be created by the user. A bicycle pedal is used to rotate the cylinder.

62 SWEET LOVE GATEWAY NO-FOMOSAPIENS

Building our first artwork this year, the NO-FOMOsapiens are a collective of engineers, architects, programmers, experienced burners and artists with a common dream to add beauty to everyone's lives. With years of experience building structures and artworks at other events, we decided to bring our love and light to AfrikaBurn, and light up the desert sky with our dreams.

56 TANKWA CHESS DREAMCATCHERS

Tankwa Chess is here for all to enjoy. However, it wouldn't be Tankwa Chess if the game was not adapted to our temporary city. You may recognise well known and loved burner-icons, helped by our volunteers (without volunteers AB would not be what it is). On the other side we recognise what runs the default-world in which we all have to spend our time away from 'home'. Also, the Karoo wind forces us to change our 'perspective', this leads to an interesting game set-up. We hope you will enjoy 'this classic game in new clothes'. **24/7**

39 TEMPLE OF /XAM THE DANDYLIONS

This year Temple/Xam will burn. It was built for Afrika Burn 2016 to honor and acknowledge the indigenous people who live in the Tankwa area over 150 years ago. It has experienced 3 Afrika burns and 3 years of wind and heat and all the Tankwa beauty and silence that most of us know and love. It has been a nesting tree for a variety of birds. Personally, I am ready and excited to finally complete the process and at the same time symbolically cleanse 3 years of my life. Thank you to the owners of Stonehenge for indulging this piece and to the openmindedness of the festival organisers and to the patience of all those hard-core burners out there. This will be a silent burn.

7 TEMPLE OF STARS STARLIGHT CREW

The geometry of the magical pentagram portrays and symbolises many phenomena in our galaxy - the Golden Ratio, the five petalled path of Venus, Leonardo's Vitruvian man with 5 senses, the soul and the elements, darkness & light, amongst others. More than 5,000 pieces were cut from only recycled wood & reused plywood to create the Temple of Stars for the community of AfrikaBurn. All belief systems are ultimately mental constructs, yet we can engage in collective myth-making. We invite you to celebrate immediacy through ritual at the Temple, to let go of the past and release what separates you from the present.

The Flock of Flaming Flamingos are visiting Tankwa Town! They are a dozen individual wooden birds, each with it's own personality and style; they will be located all around the site and at the conclusion of the event they will be getting together with the rest of their buddies for a Burn ceremony, where they will fly off into the ether, ready to re-manifest in the near future. Each bird has a custodian patch and stickers for their friends to share too! **Sunset**

dome with cosy seating inside. It is a place of peace, a quiet catch-up and slow-down spot in the middle of the playa. A sweet sunset spot, a half-hidden hiatus. 67 THE MAN IN THE HAT ARTCOM

On the night our Temple burned last year (28th April), Burning Man co-founder Larry Harvey passed away. Known for wearing a grey Stetson hat that he wore in honor of his father, in 1986 Larry and some friends had the impulse to create an effigy of a man, and then drag it down to Baker Beach in San Francisco to burn it. His impulse and his readiness to react to the rich non-conformist, playful, pranksterish environment in which he did it, led to the creation of Burning Man, regional burns and in turn to AfrikaBurn. We do this to honor him and the cultural reverberations that his impulse instigated globally.

"So I like shoes, OK? Don't be so judgy, jeez. If you find me, tip me out and I'll be on my way. Remember: fat claws good, thin claws hospital."

Your grandmother's sitting-room, abandoned to the desert and overgrown with cacti. A small but welcoming refuge. An old gramophone plays a collection of easy listening grooves, French chill, short stories, jazz, animal sounds, poetry, ghost stories and curated whispers. Something compels you to stop here. To dwell on your past and plan your next move. To admire the void which is the night sky and to converse with the ghosts of twilight. Don't forget to write in the Visitor's Book (they hate it when you leave without writing in the Visitor's Book). *Afternoon, Sunset*

16 THE SKELETON LEAF OF CHANGE

THE SKELETON LEAF OF CHANGE

The Skeleton Leaf of Change, an artwork built last year by the first all-female crew at AfrikaBurn, invites you to be embraced by its caring blessings. The intention of the project, directed by Kiara Watermeyer, was not only to show and encourage women's strength alike, but also to gift Tankwa Town with a holding space that embodies the nurturing feminine energy. The process of solely hand-making the structure allowed the experience that grew within the artists involved to be weaved into the wattle. Come and be still in the atmosphere of the gentle sound of wind-swept bells and mother nature.

BURN SCHEDULE

As with all things in Tankwa Town, we invoke the gospel of -Ish.

These burn times may change due to Artists' whim, health and safety considerations, or the mighty desert weather. Please check the burn schedule board at Off-Centre Camp for the latest info (or tune in on 99.9FM to listen to Radio Free Tankwa, who will also broadcast the latest times & locations).

If you don't want to miss a burn, a good tip is to look to the horizon and go to where you see people gathering. If there's a burn perimeter, chances are good something's about to burn.

2019 THEME

*"...an Ephemeropolis, or evanescent city,
fleeing in the dust and smoke of their imaginations..."*

- D.S. Black -

Rising like a dusty mirage out of the Karoo heat, there's a city that many call home. It's a manifestation of our collective imagination and the culmination of our collective efforts. It comes and goes, and ebbs and flows. It's transient, temporary and transitory. It's neither here, nor there. It is real in its unrealness.

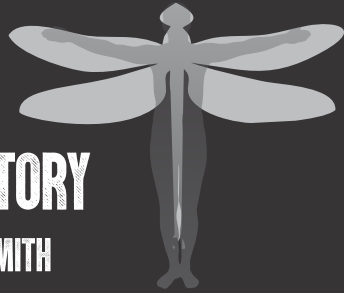

"Out of nothing, we created everything."

- Larry Harvey -

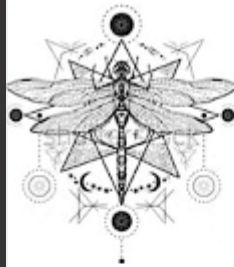

Sinking into the sands of time, every artwork will be taken down or burned, every camp will be packed away, and every Mutant Vehicle dismantled. This city we manifested will disappear, remaining only in our minds. What a beautiful, astounding, priceless thing.

OUR COVER STORY

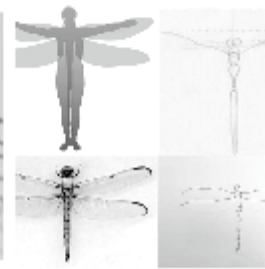

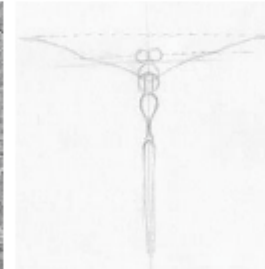

CREATED BY RACHEL SMITH

The cover design story emerged from deep meditations and visualisations holding the question **'what is needed to shift me, and us'**. It began with 3 concentric conveyer belt humans, who are rapidly spinning in System 3. In the centre is our Clan who draws water from above to timely feed those in System 3. Some beings also receive wisdom from the most ancient being on earth The Dragonfly who is 300 million years old. With collective head, heart and hand wisdom these emerging Dragonbeings exit System 3 with courage. They are slowly moving into the unknown, into System 4. Adaptive and agile Dragonbeings are held by it all and have clarity and control in their intentions to co-shape and co-create System 4. They remind us light can reflect light in the most powerful of ways if we chose to let it, allowing creative imagination to become our Life Force. Water and wisdom is our catalyst for change. Be brave, go slowly, rest, and allow curiosity to lead you.

dragonfly
Having flown the earth
for 300 million years,
dragonflies symbolise our ability
to overcome times of hardship.
They can remind us
to take time to rest.
